The GYPSY, Creator and Executive Director of TopCon Geek Expo expounded on the importance of having an Artist of Jessica's stature at TopCon. "Jessica captures the world of a child in a way in which adults can relate. As adults we reflect back on our childhood with a mixture of happiness and melancholy; Jessica's art encompasses those two diverse emotions and brings them together in a way in which every geek can relate. Because after all, in the end, it is our longing for childhood and

the fantasy games of our youth that brings every geek together. Jessica illustrates that bond, that bridge that joins together all geeks."

She used to think that if you rode in a hot air balloon you could catch clouds in a jar, but you can't. When she was a child she aspired to be a tree frog and would hop around her house with olives on her fingers.

"I love painting and combining my paintings with collage elements, think glue and cut and paste but in a sort of digital form, I love watercolor and ink when working traditionally. I'm greatly inspired by children's storybooks and all the fantasy that surrounds the world a child lives in, the stories they see everyday in their heads. My own children inspire a great deal of my work and I hope to continue to grow and expand both their worlds and mine"
